SHIAMAK DANCE EDUCATION

DIRECTOR'S NOTE

As the Founder and Artistic Director, my aim through Shiamak Dance Education (SDE) is to share the benefits of dance with students in their formative years. When I started my journey two decades back, I realized my mission of spreading the joy of dance, and using its therapeutic power. During this journey I have seen people heal physically, mentally and spiritually through performing arts. Whilst at school, children are more receptive to the process of learning, and using dance as a medium of physical activity and creative medium, this program aims at channelizing their energy in a resourceful manner.

Honored with a doctorate from Middlesex University, London

The expert faculty is personally trained by me and specializes in teaching children of all age groups, understanding their individual requirements and ensuring that they learn in a fun and friendly environment. I invite your esteemed institute in adopting a holistic learning approach provided through Shiamak Dance Education. We wish you a positive performing arts experience with us.

God Bless

Thank you ever so much for the excellent Dance Education workshop you held for my students in October 2010. The theme was well presented and the children's energies were released through stress free mind and body co-ordination. This is laudable. Not only did the children enjoy the workshop but their parents also enjoyed watching them.

I think dance forms most beautiful expression for students to come out with their potentials and this has been a very fun filled experience for my children. The amazing instructors of Shiamak Davar have been very influential in making my children perform beautifully with the different dance styles. I wish them all the best in their future endeavors and I wish them all the success.

CURRICULUM BASED

Through the academic year, a dance curriculum is followed with an emphasis on body, mind and soul. Each dance session conducted in the school premises, includes:

- Body warm up and isolation exercises
- Therapeutic dance activities
- Choreography
- Inspirational cool down

The teaching pattern is interactive and communicative ensuring that the learning process is fun. Technical dance terms are taught via dance rhymes making it easier to remember and exciting to learn.

Each dance class is designed to improve physical wellness, stimulate the mind and enable holistic development.

WORKSHOPS

Workshops may be conducted as an extra curricular activity during or after school hours in the school premises. Workshops may be based on a particular dance style for a specific period of time and can be customized to suit the students' and school's requirements.

ANNUAL DAYS

With over 25 years of experience in the dance and entertainment industry, The **SHIAMAK** Team designs and choreographs annual day shows based on various styles, themes and concepts.
